15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This application transfers supplemental water rights to a well to be constructed on Applicants' property. The existing well is located on land administered by the BLM and the casing has been compromised. Applicants have been unable to secure the necessary permissions from the BLM to repair/replace the well and so this application is being filed to allow for construction of said new well. The total combined duty of this application, application to change Permit 80831, Permit 31055, Permit 55449 & 69522 shall not exceed 1085.32 acre-feet for the irrigation of 271.33 acres within the place of use.

16. Miscellaneous remarks:

A temporary application to change is being filed concurrently with this application in order to allow for the drilling and equipping of the new well in time for the 2016 irrigation season.
